

GENERIC ELECTIVE
Department of Physics and Electronics
BIOPHYSICS

Objective:

The aim of this course is to

- introduce the basic physics concepts involved in the functioning of Eye and Ear
- enable students to develop a basic familiarity with all the major medical imaging techniques

Outcome:

On completion of this course,

- Students will get familiarize with basics of physics involved in functioning of Eye and Ear.
- Students will be able to analyze the properties from the corresponding medical images.
